## España pierde a jóvenes cualificados

Un estudio reciente revela que, debido a la alta tasa de paro juvenil, muchos jóvenes españoles de entre 15 y 29 años eligen hacer un máster o irse a otro país para buscar trabajo.

Hay muchos licenciados, muy bien preparados, que se marchan al extranjero para mejorar su inglés. Muchos de ellos terminan trabajando en cafeterías o restaurantes. Irse fuera de España para trabajar parece la única opción, porque no hay suficientes trabajos en el país.

El 47% piensa que la situación en España mejorará este año, pero ¿volverán los que se han ido fuera?

## Justicia para unos estudiantes mexicanos

Muchos universitarios se movilizaron en la ciudad mexicana de Jalisco contra la desaparición de tres estudiantes de cine, presuntamente asesinados por un cartel de las drogas.

Unas 15.000 personas entre las edades de 13 y 29 años figuran oficialmente como desaparecidas en México en la guerra contra las drogas.

“Es imposible entender esta locura”, tuiteó el director de cine Guillermo del Toro.
