Section AAnswer Question 01

Extract A

Charles I was a shy man of few words, possibly as a result of a speech defect. His contemporaries found that he was unapproachable and, what was worst, uncommunicative, especially in parliament, where his intentions and his actions often went unexplained, leaving others free to interpret them to his disadvantage. Charles also showed that he possessed none of his father's political shrewdness or flexibility. He did not appear to know the meaning of the word compromise and often adopted extreme positions. He seemed unable to understand viewpoints that differed from his own, he interpreted the slightest hint of criticism of him as sedition and in dealing with opponents he was not above using very dishonest and illegal tactics. Charles' court came increasingly to represent a narrowing range of interests. This was partly as a result of Charles' introverted character and partly of his love for order and decorum. Charles I was the most inept monarch.

Extract B

Charles I is the most despised monarch in Britain's historical memory. Considering that among his predecessors were murderers, rapists, psychotics and the mentally challenged, this is no small distinction. In most modern accounts, he is portrayed as a mean, petty and vindictive tyrant who brought misery to his subjects and ruin to his nation. However, Charles did not earn these censures by having an aberrant personality; indeed his characteristics were mostly laudable. He had refined sensibilities and loved art, music and dance. He was a religious man. Abstemious, he dined moderately and diluted his wine. Charles was a loving husband. He aspired to make England a great European power. Many contemporaries found only modest faults in his character. The process of demonisation began in the 1640s among Parliamentarians who blackened the reputation of the king. What began as propaganda has been transformed into seeming fact.

Charles was cold, prudish, withdrawn, shifty. ... There was a greater degree of political acquiescence than there had been for centuries.
