BLANK PAGE

On the front of this book, write your surname and forename(s), your centre number, your candidate number and add your signature.

MATERIALS

For this paper you must have:

- **a protractor**
- **a ruler**
- **a scientific calculator**
- **the Physics Equations Sheet (enclosed).**

[Turn over]

INSTRUCTIONS

- **Use black ink or black ball-point pen.**
- **Pencil should only be used for drawing.**
- **Answer ALL questions in the spaces provided.**
- **If you need extra space for your answer(s), use the lined pages at the end of this book. Write the question number against your answer(s).**
- **Do all rough work in this book. Cross through any work you do not want to be marked.**
- **In all calculations, show clearly how you work out your answer.**

INFORMATION

- **The maximum mark for this paper is 70.**
- **The marks for questions are shown in brackets.**
- **You are expected to use a calculator where appropriate.**
- **You are reminded of the need for good English and clear presentation in your answers.**

FIGURE 4 shows a person using a newtonmeter to measure the weight of a suitcase.

FIGURE 4

There is a pair of forces acting between the suitcase and the newtonmeter.

0 2 . 1

How does the force on the suitcase compare with the force on the newtonmeter? [1 mark]

Tick (✓) ONE box.

The force on the suitcase is smaller.

The forces are the same size.

The force on the suitcase is bigger.
