**Ovid, *A good day at the Circus*
(*Amores* 3.2)**

non ego nobilium sedeo studiosus equorum;
 cui tamen ipsa faves, vincat ut ille, precor.
 ut loquerer tecum veni, tecumque sederem,
 ne tibi non notus, quem facis, esset amor.
 tu cursus spectas, ego te: spectemus uterque 5
 quod iuvat atque oculos pascat uterque suos.
 o, cuicumque faves, felix agitator equorum!
 ergo illi curae contigit esse tuae?
 hoc mihi contingat, sacro de carcere missis
 insistam forti mente vehendus equis 10
 et modo lora dabo, modo verberare terga notabo,
 nunc stringam metas interiore rota;
 si mihi currenti fueris conspecta, morabor,
 deque meis manibus lora remissa fluent.
 maxima iam vacuo praetor spectacula Circo 15
 quadriiugos aequo carcere misit equos.
 cui studeas, video; vincet, cuicumque favebis:
 quid cupias, ipsi scire videntur equi.
 me miserum, metam spatioso circuit orbe;
 quid facis? admoto proxumus axe subit. 20
 quid facis, infelix? perdis bona vota puellae;
 tende, precor, valida lora sinistra manu.
 favimus ignavo. sed enim revocate, Quirites,
 et date iactatis undique signa togis.
 en, revocant; ac, ne turbet toga mota capillos, 25
 in nostros abdas te licet usque sinus.
 iamque patent iterum reserato carcere postes,
 evolat admissis discolor agmen equis.
 nunc saltem supera spatioque insurge patenti:
 sint mea, sint dominae fac rata vota meae. 30
 sunt dominae rata vota meae, mea vota supersunt;
 ille tenet palmam, palma petenda mea est.

Martial, *Lament for a dead charioteer*
(*Epigrams* 10.50)

frangat Idumaeas tristis Victoria palmas,
 plange, Favor, saeva pectora nuda manu;
 mutet Honor cultus, et iniquis munera flammis
 mitte coronatas, Gloria maesta, comas.
 heu facinus! prima fraudatus, Scorpe, iuventa
 occidis et nigros tam cito iungis equos.
 curribus illa tuis semper properata brevisque
 cur fuit et vitae tam prope meta tuae?

Pliny, *Not at the races*
(*Letters* 9.6)

omne hoc tempus inter pugillares ac libellos iucundissima
 quiete transmisi. 'quemadmodum' inquis 'in urbe potuisti?'
 circenses erant, quo genere spectaculi ne levissime quidem
 teneor. nihil novum nihil varium, nihil quod non semel
 spectasse sufficiat. quo magis miror tot milia virorum tam
 pueriliter identidem cupere currentes equos, insistentes
 curribus homines videre. si tamen aut velocitate equorum aut
 hominum arte traherentur, esset ratio non nulla; nunc favent
 panno, pannum amant, et si in ipso cursu medioque certamine
 hic color illuc ille huc transferatur, studium favorque transibit,
 et repente agitadores illos equos illos, quos procul noscitant,
 quorum clamitant nomina relinquent. tanta gratia tanta
 auctoritas in una vilissima tunica, mitto apud vulgus, quod
 vilius tunica, sed apud quosdam graves homines; quos ego
 cum recordor, in re inani frigida assidua, tam insatiabiliter
 desiderare, capio aliquam voluptatem, quod hac voluptate non
 capior. ac per hos dies libentissime otium meum in litteris
 colloco, quos illi otiosissimis occupationibus perdunt.

Juvenal, *The crowd in the Circus*
 (*Satire 11, lines 197-204*)

totam hodie Romam circus capit, et fragor aurem
 percutit, eventum viridis quo colligo panni.
 nam si deficeret, maestam attonitamque videres
 hanc urbem veluti Cannarum in pulvere victis
 consulibus. spectent iuvenes, quos clamor et audax
 sponsio, quos cultae decet adsedis puellae:
 nostra bibat vernum contracta cuticula solem
 effugiatque togam.

Suetonius, *Caligula's favourite racehorse*
 (*Caligula 55*)

prasinae factioni ita addictus et deditus, ut assidue in stabulo
 cenaret et maneret, agitatori Eutycho comisatione quadam in
 apophoretis vicies sestertium contulit. pridie circenses, ne
 Incitatus equus inquietaretur, silentium vicinia per milites
 indicere solebat. ei praeter equile marmoreum et praesaepe
 eburneum praeterque tegumenta purpurea ac monilia e
 gemmis facta domum et familiam et supellectilem dedit, ut
 hospites nomine eius invitati eleganter acciperentur;
 consulatum etiam traditur ei destinasse.

**Suetonius, *Nero's passion for chariot-racing*
(*Nero 22*)**

equorum studio vel praecipue ab ineunte aetate flagavit plurimusque illi sermo, quamquam vetaretur, de circensibus erat; et quondam tractum prasinum agitatore inter condiscipulos querens, obiurgante paedagogo, de Hectore se loqui ementitus est. sed cum inter initia imperii eburneis quadrigis cotidie in abaco luderet, ad omnes etiam minimos circenses e secessu commeabat, primo clam, deinde palam, ut nemini dubium esset eo die utique affuturum. neque dissimulabat velle se palmarum numerum ampliari; quare spectaculum multiplicatis missibus in serum protrahebatur, ne dominis quidem iam factionum dignantibus nisi ad totius diei cursum greges ducere. mox et ipse aurigare atque etiam spectari saepius voluit positoque in hortis inter servitia et sordidam plebem rudimento universorum se oculis in Circo Maximo praebuit, aliquo liberto mittente mappam unde magistratus solent.

Virgil, A boat race
(*Aeneid* 5, lines 139-159)

Four boats compete in the race:

*the **Pristis**, commanded by Mnestheus*

*the **Chimaera**, commanded by Gyas*

*the **Centaur**, commanded by Sergestus*

*the **Scylla**, commanded by Cloanthus.*

The aim is to make one circuit of a rock far out to sea, which acts like the meta in the Circus.

inde ubi clara dedit sonitum tuba, finibus omnes
(haud mora) prosiluere suis; ferit aethera clamor
nauticus, adductis spumant freta versa lacertis.
infindunt pariter sulcos, totumque dehiscit
convulsum remis rostrisque tridentibus aequor. 5
non tam praecipites biiugo certamine campum
corripuere ruuntque effusi carcere currus,
nec sic immissis aurigae undantia lora
concussere iugis pronique in verbera pendent.
tum plausu fremituque virum studiisque faventum 10
consonat omne nemus, vocemque inclusa volutant
litora, pulsati colles clamore resultant.
effugit ante alios primisque elabitur undis
turbam inter fremitumque Gyas; quem deinde Cloanthus
consequitur, melior remis, sed pondere pinus 15
tarda tenet. post hos aequo discrimine Pristis
Centaurusque locum tendunt superare priorem;
et nunc Pristis habet, nunc victam praeterit ingens
Centaurus, nunc una ambae iunctisque feruntur
frontibus et longa sulcant vada salsa carina. 20

Gyas is first to reach the rock, but his helmsman takes such a wide course round the rock that Gyas becomes angry and throws him overboard – thus allowing the Scylla to take the lead. Far behind them, the Pristis and the Centaur are battling for third place. However, Sergestus steers the Centaur too close to the rock and the boat is so badly damaged that he has to drop out of the race. Mnestheus in the Pristis then seizes his chance to close the gap on the other two boats.

(Lines 223-243)

inde Gyan ipsamque ingenti mole Chimaeram consequitur; cedit, quoniam spoliata magistro est. solus iamque ipso superest in fine Cloanthus, quem petit et summis adnixus viribus urget.	
tum vero ingeminat clamor cunctique sequentem instigant studiis, resonatque fragoribus aether. hi proprium decus et partum indignantur honorem ni teneant, vitamque volunt pro laude pacisci; hos successus alit: possunt, quia posse videntur.	25
et fors aequatis cepissent praemia rostris, ni palmas ponto tendens utrasque Cloanthus fudissetque preces divosque in vota vocasset: 'di, quibus imperium est pelagi, quorum aequora curro, vobis laetus ego hoc candentem in litore taurum constituam ante aras voti reus, extaque salsos proiciam in fluctus et vina liquentia fundam.'	30
dixit, eumque imis sub fluctibus audiit omnis Nereidum Phorcique chorus Panopeaque virgo, et pater ipse manu magna Portunus euntem impulit: illa Noto citius volucrique sagitta ad terram fugit et portu se condidit alto.	35 40

Seneca, *The debt we owe to our parents*
(De Beneficiis 5.5)

a parentibus fere vincimur. nam tam diu illos habemus, quam diu iudicamus graves et quam diu beneficia illorum non intellegimus. cum iam aetas aliquid prudentiae collegit et apparere coepit eos amari a nobis debere propter illa ipsa quae non amabantur – admonitiones, severitatem et inconsultae adulescentiae diligentem custodiam – nobis rapiuntur. paucos ad verum fructum a liberis percipiendum perduxit aetas; ceteri filios oneri senserunt. 5

Pliny, *The traditional Roman education*
(Letters 8.14)

erat autem antiquitus institutum, ut a maioribus natu non auribus modo verum etiam oculis disceremus quae ipsi faceremus ac per vices quasdam minoribus traderemus. inde adulescentuli statim castrensibus stipendiis imbuebantur ut imperare parendo, ducere dum sequuntur adsuescerent; ei qui honores petituri erant adsistebant curiae foribus, et consilii publici spectatores ante quam consortes erant. suus cuique parens pro magistro, aut cui parens non erat maximus quisque et vetustissimus pro parente. quae potestas referentibus, quod censentibus ius, quae vis magistratibus, quae ceteris libertas, omnem denique senatorium morem – quod fidissimum percipiendi genus – exemplis docebantur. 5 10

Martial, *I'm not a child any more!*
(*Epigrams* 11.39)

cuniarum fueras motor, Charideme, mearum
 et pueri custos assiduusque comes.
 iam mihi nigrescunt tonsa sudaria barba
 et queritur labris puncta puella meis;
 sed tibi non crevi: te noster vilicus horret, 5
 te dispensator, te domus ipsa pavet.
 ludere nec nobis nec tu permittis amare;
 nil mihi vis et vis cuncta licere tibi.
 corripis, observas, quereris, suspiria ducis,
 et vix a ferulis temperat ira tua. 10
 si Tyrios sumpsisti cultus unxisti capillos,
 exclamas 'numquam fecerat ista pater';
 et numeras nostros astricta fronte trientes,
 tamquam de cella sit cadus ille tua.
 desine; non possum libertum ferre Catonem. 15
 esse virum iam me dicet amica tibi.

Cicero, *Boys will be boys*
(*Pro Caelio* 43)

multi et nostra et patrum maiorumque memoria, summi homines et
 clarissimi cives fuerunt, quorum cum adolescentiae cupiditates
 defervissent, eximiae virtutes firmata iam aetate exstiterunt. ex
 quibus neminem mihi libet nominare; vosmet vobiscum 5
 recordamini. nolo enim cuiusquam fortis atque illustris viri ne
 minimum quidem erratum cum maxima laude coniungere. quod si
 facere vellem, multi a me summi atque ornatissimi viri
 praedicarentur, quorum partim nimia libertas in adolescentia,
 partim profusa luxuries, magnitudo aeris alieni, sumptus, libidines
 nominarentur, quae multis postea virtutibus obiecta adolescentiae, 10
 qui vellet, excusatione defenderet.

Apuleius, *The three phases of education*
(Florida 20.4)

sapientis viri super mensam celebre dictum est: 'prima creterra ad sitim pertinet, secunda ad hilaritatem, tertia ad voluptatem, quarta ad insaniam.' verum enimvero Musarum creterra versa vice quanto crebrior quantoque meracior, tanto propior ad animi sanitatem. prima creterra litteratoris rudimento eximit, secunda grammatici doctrina instruit, tertia rhetoris eloquentia armat. 5

Horace, *Gratitude for a good education*
(Satire 1.6, lines 71-88)

causa fuit pater his qui, macro pauper agello,
 noluit in Flavi ludum me mittere, magni
 quo pueri magnis e centurionibus orti,
 laevo suspensi loculos tabulamque lacerto,
 ibant octonos referentes Idibus aeris: 5
 sed puerum est ausus Romam portare, docendum
 artes quas doceat quivis eques atque senator
 semet prognatos. vestem servosque sequentes,
 in magno ut populo, si quis vidisset, avita
 ex re praeberi sumptus mihi crederet illos. 10
 ipse mihi custos incorruptissimus omnes
 circum doctores aderat. quid multa? pudicum,
 qui primus virtutis honos, servavit ab omni
 non solum facto, verum opprobrio quoque turpi;
 nec timuit sibi ne vitio quis verteret olim 15
 si praeco parvas aut, ut fuit ipse, coactor
 mercedes sequer; neque ego essem questus: at hoc nunc
 laus illi debetur et a me gratia maior.

Petronius, *A pushy father*
(*Satyricon* 46)

tu, Agamemnon, prae litteris fatuus es. aliquo die te persuadeam ut ad villam nostram venias? tibi discipulus crescit filius meus: iam quattuor partes dicit; si vixerit, habebis bonum discipulum. nam quicquid illi vacat, caput de tabula non tollit. ingeniosus est, etiam si in aves morbosus est. ego illi tres cardeles occidi et dixi 'mustella eos comedit'. invenit tamen alias nenias et libentissime pingit. ceterum iam litteris Graeculis calcem impingit et Latinas coepit non male appetere. emi ergo puero aliquot libros rubricatos, quia volo illum aliquid de iure gustare. habet haec res panem. si noluerit, destinavi illum artificium docere – aut tonstrinum aut praeconem, aut certe causidicum – quod illi auferre possit nihil nisi Orcus. ideo illi cotidie clamo: 'fili, crede mihi, quicquid discis, tibi discis. litterae thesaurus est, et artificium numquam moritur.'

Juvenal, *Who would be a teacher?*
(*Satire* 7, lines 215-232 with omissions)

quis gremio Celadi doctique Palaemonis adfert
quantum grammaticus meruit labor? et tamen ex hoc,
quodcumque est (minus est autem quam rhetoris aera),
discipuli custos praemordet acoenonoetus
et qui dispensat frangit sibi. cede, Palaemon,
dummodo non pereat totidem olfecisse lucernas
quot stabant pueri, cum totus decolor esset
Flaccus et haereret nigro fuligo Maroni.
rara tamen merces quae cognitione tribuni
non egeat. sed vos saevas inponite leges,
ut praeceptorum verborum regula constet,
ut legat historias, auctores noverit omnes
tamquam ungues digitosque suos.

Quintilian, *A tricky point of law*
(*Institutio Oratoria* 7.1.42)

An example of the kind of topic debated at the school of a rhetor.

'is qui patri prodicionis accusato non adfuerit, exheres sit: is qui prodicionis damnatus erit cum advocato in exilium abeat.'

patri prodicionis reo disertus filius adfuit, rusticus non adfuit.
damnatus abiit cum advocato in exilium. rusticus cum aliquid
fortiter fecisset, praemii nomine impetravit restitutionem patris et
fratris. pater domum reversus intestatus decessit: petit rusticus
partem bonorum, orator totum vindicat sibi.
